

UNITED STATES DISTRICT COURT  
DISTRICT OF MASSACHUSETTS

IN RE PHARMACEUTICAL INDUSTRY  
AVERAGE WHOLESALE PRICE  
LITIGATION

THIS DOCUMENT RELATES TO:

COUNTY OF SUFFOLK,

Plaintiff,

v.

ABBOTT LABORATORIES, INC., et al.,

Defendant.

MDL No. 1456

Master File No. 01-CV-12257 (PBS)

HON. PATTI B. SARIS

**RESPONSE OF GENENTECH, INC. TO  
SUFFOLK COUNTY'S SUPPLEMENTAL FILING**

Defendant Genentech, Inc., ("Genentech") submits this individual response to Suffolk County's Affidavit of Aaron D. Hovan Providing (1) Methodology and Documents Used To Estimate AWP Spread and (2) Additional Information Regarding Defendants ("Supplemental Filing"). Genentech has not been named as a defendant in any other AWP case, and, therefore, is one of the "Suffolk 13." Genentech has joined the common brief in response to the Supplemental Filing and makes these additional points on its own behalf.

1. The Supplemental Filing does not mention Genentech at all. There are absolutely no references to Genentech in Mr. Hovan's Affidavit or any of the Exhibits. In fact, there are no allegations about Genentech because Genentech has never been the subject of any other AWP investigation, subpoena, or lawsuit. The only piece of information that ties this case to Genentech is the inclusion of one Genentech drug, Pulmozyme, on the lists of drugs and prices.

2. Suffolk County has provided the Court with false or inaccurate pricing data for Pulmozyme.

A. First, the AWP's that Suffolk County says were published in the Red Book are incorrect. In 2001, the Red Book AWP for 30 units of 2.5 ML dose of Pulmozyme was \$1,253.41. (See 2001 Red Book at Ex. 1, attached hereto.) Suffolk County falsely claims that the published AWP was \$1,439.48. (See Supplemental Filing at Ex. B.) In 2003, the Red Book AWP for a single 2.5 ML unit dose of Pulmozyme was \$43.87. (See 2003 Red Book at Ex. 2, attached hereto.) Suffolk County falsely claims that the published AWP was \$47.98. (See Supplemental Filing at Ex. C.)

B. Second, Suffolk County also provided on-line pharmacy prices for Pulmozyme which are false, incorrect or unsubstantiated. Costco.com currently offers a single dose at \$53.69. (See Ex. 3, attached hereto.) However, Suffolk County falsely alleges that the 2004 Costco price is \$49.73. (See Supplemental Filing at Ex. D.) While Suffolk County claims that the 2004 DrugStore.com price for a single dose was \$45.96, (See Supplemental Filing at Ex. C), DrugStore.com does not offer Pulmozyme in single unit doses. (See Ex. 4, attached hereto). Even if DrugStore.com's volume price of \$1414.55 for 30 units were divided by 30 and applied to a single dose sale, the price would be \$47.15.

3. Finally, Suffolk County claims that the "average retail price is estimated to be 1.27 times the true average wholesale price." (See Supplemental Filing at p. 2.) This 1.27 estimate is derived from a sample of drugs that are radically dissimilar to Pulmozyme. Pulmozyme is an inhalation solution of recombinant human deoxyribonuclease I (rhDNase), an enzyme which selectively cleaves DNA. It is used for the treatment of cystic fibrosis. The sample upon which Suffolk County relies does not include any drugs in the same therapeutic category as Pulmozyme, nor does it include drugs based on recombinant rhDNase. Notwithstanding these obvious defects in the sample, Suffolk County makes no attempt to

explain why its theory that the average retail price is 1.27 times the true average wholesale price should be applicable to Pulmozyme.

For the reasons stated herein, and in the common brief, Genentech respectfully requests the Court to dismiss this case, with prejudice, against Genentech.

Dated: November 30, 2004

Respectfully submitted,

REED SMITH LLP

---

Kathleen H. McGuan  
1301 K Street, N.W.  
Suite 1100 – East Tower  
Washington, DC 20005

Counsel for the Genentech, Inc.
